

ClearSign To Present At Singular Research 9th Annual Best Of The Uncovereds Conference 2014

SEATTLE, Sept. 15, 2014 /PRNewswire/ -- ClearSign Combustion Corporation (NASDAQ: CLIR), an emerging leader in combustion and emissions control technology for industrial, commercial and utility markets, announced today that Chief Executive Officer Rick Rutkowski will be a featured presenter at the Singular Research 9th Annual Best of the Uncovereds 2014 Conference on Monday, September 22nd, 2014 in at the Luxe Hotel in Los Angeles, CA. Mr. Rutkowski's presentation is scheduled to begin at 10:30 AM.

ClearSign was selected to join 30 high-quality companies representing the most compelling and timely ideas in small and microcaps to an audience of institutional investors with a specific interest in identifying high growth small and microcap companies. Investors include portfolio managers, hedge fund managers, family offices, wealth managers, and analysts representing over \$70 billion in assets.

According to Robert Maltbie, President of Singular Research, "Last year's conference broke all previous attendance records and this year we are on track for an even better event. We are thrilled to feature presenters who are not typically covered and are off the radar, but who also show great performance potential for investors. They truly are the best of the uncovered and are positioned for explosive growth."

About Singular Research

Singular Research, based in Los Angeles and New York, is one of the most trusted providers of unbiased, performance-based research on small- and micro-cap companies to fund managers. Singular provides initiation reports and quarterly updates for approximately 60 companies. In many cases, Singular's analysts research companies that are often not covered by any other firms.

About ClearSign Combustion Corporation

ClearSign Combustion Corporation designs and develops technologies that aim to improve key performance characteristics of combustion systems including energy efficiency, emissions control, fuel flexibility and overall cost effectiveness. Our Duplex™ Burner Architecture and Electrodynamic Combustion Control™ (ECC™) platform technologies improve control of flame shape and heat transfer and optimize the complex chemical reactions that occur during combustion in order to minimize harmful emissions. Cautionary note on forward-looking statements

This press release includes forward-looking information and statements within the meaning of the Private Securities Litigation Reform Act of 1995 and the provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Except for historical information contained in this release, statements in this release may constitute forward-looking statements regarding our assumptions, projections, expectations, targets, intentions or beliefs about future events that are based on management's belief, as well as assumptions made by, and information currently available to, management. While we believe that our expectations are based upon reasonable assumptions, there can be no assurances that our goals and strategy will be realized. Numerous factors, including risks and uncertainties, may affect our actual results and may cause results to differ materially from those expressed in forward-looking statements made by us or on our behalf. Some of these factors include the acceptance of existing and future products, the impact of competitive products and pricing, general business and economic conditions, and other factors detailed in our Quarterly Report on Form 10-Q and other periodic reports filed with the SEC. We specifically disclaim any obligation to update or revise any forward-looking statement whether as a result of new information, future developments or otherwise.
