

Jeffrey L. Ott Joins ClearSign Board of Directors

SEATTLE, Feb. 10, 2015 /PRNewswire/ -- [ClearSign Combustion Corporation](#) (NASDAQ: CLIR), an emerging leader in combustion and emissions control technology for industrial, commercial and utility markets, today announced the appointment of Jeffrey L. Ott as an independent director of the Company, effective immediately.

Mr. Ott is the President and Chief Executive Officer of [Quest Integrity Group, LLC](#), a platform company and a subsidiary of Team, Inc. (NYSE:TISI), with operations in advanced inspection and engineering assessment of critical energy infrastructure in the process, pipeline, production and power sectors.

"Jeff's broad experience in the energy industry along with his depth of knowledge in investment banking will add a valuable perspective to our Board of Directors," said Stephen E. Pirnat, ClearSign Chairman and CEO. "We appreciate his willingness to serve as a director and look forward to benefitting from his judgment and counsel."

Mr. Ott has been involved with high-growth, industrial technology companies for over 25 years as an investor, director, advisor, and financier. His industry focus has included energy, automotive performance, software, process controls and NDT/E instrumentation. As a general partner at Gryphon Investors, he was responsible for managing the group's middle market-focused technology investment interests. Mr. Ott previously managed the west coast private equity effort and technology investments as a general partner at Deutsche Bank Capital Partners and prior to that, led the global convertible and equity-linked capital markets effort for Bankers Trust. He began his career as an engineer in the Operations Analysis group at Rockwell International's North American Aircraft. Mr. Ott holds a B.S. in Engineering Management and Operations Research from Southern Methodist University and an M.B.A. from the Amos Tuck School of Business at Dartmouth College.

About ClearSign Combustion Corporation

ClearSign Combustion Corporation designs and develops technologies that aim to improve key performance characteristics of combustion systems including energy efficiency, emissions control, fuel flexibility and overall cost effectiveness. Our patent-pending Duplex™ and Electrodynamic Combustion Control™ platform technologies improve control of flame shape and heat transfer and optimize the complex chemical reactions that occur during combustion in order to minimize harmful emissions.
