

ClearSign Technologies Corporation set to join Russell Microcap® Index

SEATTLE, June 7, 2021 /PRNewswire/ -- ClearSign Technologies Corporation (Nasdaq: CLIR) ("ClearSign" or the "Company"), is set to join the Russell Microcap® Index at the conclusion of the 2021 Russell indexes annual reconstitution, effective after the US market opens on June 28, according to a preliminary list of additions posted June 4.

Membership in the Russell Microcap® Index, which remains in place for one year, means automatic inclusion in the appropriate growth and value style indexes. FTSE Russell determines membership for its Russell indexes primarily by objective, market-capitalization rankings and style attributes.

"We are happy to be included in this year's additions to the Russell Indexes," said Jim Deller, Ph.D., Chief Executive Officer of ClearSign. "We believe this can only increase visibility and drive shareholder value as we continue with the commercialization of our technology in multiple product lines."

Russell indexes are widely used by investment managers and institutional investors for index funds and as benchmarks for active investment strategies. Approximately \$10.6 trillion in assets are benchmarked against Russell's US indexes. Russell indexes are part of FTSE Russell, a leading global index provider.
